Listing of Claims:

1 Claim 1 (currently amended): A composite sheet comprising a
2 sheet having elastic property and another sheet having slip
3 property wherein the sheets are stacked, wherein said sheet
4 having elastic property and said sheet having slip property
5 are both formed with a slit.

Claim 2 (canceled)

1 Claim 3 (currently amended): The composite sheet according
2 to claim 1, ~~claim 2~~, wherein said slit of said sheet having
3 elastic property is substantially conformed with said slit
4 of said sheet having slip property.

1 Claim 4 (currently amended): The composite sheet according
2 to claim 1, ~~claims 1 or 2~~, wherein said sheet having elastic
3 property is made of silicone rubber.

1 Claim 5 (currently amended): The composite sheet according
2 to claim 1, ~~claims 1 or 2~~, wherein said sheet having slip
3 property is made of polypropylene, polyethylene or
4 polytetrafluoroethylene.

1 Claim 6 (currently amended): The composite sheet according
2 to claim 1, ~~claims 1 or 2~~, wherein said sheet having slip

property has coefficient of dynamic friction and coefficient of static friction, the both of the coefficients being 0.2 or less.

Claim 7 (currently amended): The composite sheet according to claim 1, ~~claims 1 or 2~~,

wherein said sheet having elastic property has hardness Hs of 30° to 90° and reflection coefficient of 20% to 50%.

Claim 8 (currently amended): A container for dispensing liquid contained therein through an opening,

wherein said opening is closed with a composite sheet comprising a sheet having elastic property and another sheet having slip property wherein the sheets are stacked and wherein said sheet having elastic property and said sheet having slip property are both formed with a slit.
